

ABSTRACT OF THE DISCLOSURE

The present invention provides a multi-piece solid golf ball having very good shot feel, excellent rebound characteristics and excellent flight performance.

5 The present invention relates to a multi-piece solid golf ball comprising a core consisting of a center and an intermediate layer formed on the center, and at least one layer of a cover covering the core, wherein

the intermediate layer has a thickness of 0.3 to 2.5
10 mm and a hardness in Shore D hardness of 50 to 75,
the hardness of the intermediate layer is higher than a surface hardness in Shore D hardness of the center and a hardness in Shore D hardness of the outermost layer of the cover, and the flexural modulus of the intermediate layer
15 is lower than that of the outermost layer of the cover.
